Resources

Purpose

This (public) online resource was coproduced by Cambridgeshire with schools and parents to define for Early Years settings, Schools, and Further Education providers in Cambridgeshire what provision should be (ordinarily) available for children and young people with SEND.

We hope this will also support parents, carers and professionals to work with schools to support children with SEND.

There is also a dedicated Early Years OAP Toolkit and Post 16 OAP toolkit .

Cambridgeshire's
SEND OAP Toolkit

This resource has information to help you understand how to meet SEND and links to a host of websites as well as useful resources created by Cambridgeshire's SEND Service 0-25.

What is Ordinarily, available provision?

It can be defined as the provision made for children whose special educational needs can be met from the resources generally available to the school or setting. This will apply to all children without an Education Health and Care Plan (EHCP) but children with an EHCP will also benefit from this type of provision.

The DfE in the SEND and AP publication make it clear that they want more schools to meet need through OAP.
