Sunday 17th January 2020

Dear Parents and Carers,

We have been advised by Public Health England that there has been a positive result for COVID-19 within the school community.

The academy has followed all the required track and trace procedures and we have sought the advice of the Department for Education's public health team. As a result, 8 students and 3 members of staff have been identified as being close contacts and will need to stay at home and follow the government's self-isolation guidelines until 24th January 2021.

These students can continue their learning remotely if they continue to feel well.

All people required to self-isolate have been contacted. The school remains open to all other students and you should continue to attend as normal providing you have no symptoms.

We understand that any positive case of COVID-19 will be worrying, particularly as cases in our region continue to rise. However, we want to reassure you that we continue to work closely with local public health protection teams who are happy that our actions and processes are working effectively.

I want to thank you all again for your unwavering support throughout the pandemic as we adapt to these new guidelines.

Kind Regards,

Becky Ford
Headteacher
